OBJECTIVES

My main objective is to promote water-ski and wakeboarding worldwide. To assist individuals and teams to maximise their professional goals, on and off the water, in their respective areas from junior to senior levels, I do this by applying a combination of my crossover skills I have acquired from 38 years experience of competing all over the globe, at the highest possible level of three event water ski tournaments, The World's, The European (senior and junior) Championships, also Australia's (invitational) Moomba asters. I have 22 years competition experience at top level wakeboarding around the globe, including the world championships in Australia and France the Europeans in Greece and Sweden.

I also incorporate my skills and experience in fitness and flexibility, agility and yoga techniques, injury prevention and management, nutrition and health, mental and physical competition preparation.

TEAM COACHING

I am recognised by the British water-ski and wakeboard federation as the Highest Level Senior Coach and I am available for water-ski and wakeboard team coaching. I am able to work alongside all waterski and wakeboard federations. I am also a fully qualified first aider and I am DBS (criminal records beau) checked.

As part of the British Team since the age of twelve and with more than 38 years skiing experience, I have competed against and worked with world class wakeboarders and water-skiers from all over the globe with my finger on the pulse of the latest training techniques in wakeboarding, rails and three event waterskiing.

My high media profile includes extensive coverage worldwide in television, magazines, and newspapers including front covers and feature articles in The Sunday Telegraph Magazine, The Times, The Sunday People, Sunday Telegraph, Daily Mail, Wakeboard & Water-ski magazine USA and Worldwide Press. Dear Brett,

Just a brief note before I depart for Canada. This season has not only been successful but enjoyable. Almost without exception all employees have pulled in the same direction.

We began the summer on less than sturdy grounds and proceed from here in what, at the moment, appears to be a secure position. You have proved to be a great asset to Thorpe Ski. Our customers have enjoyed and have been beneficiaries of both your high quality coaching and your superb skiing ability. I thank you for your contribution which has been partly to our recovery. Your dedication and efforts are most appreciated.

I very much look forward to working with you in 1992, which I sincerely hope to be the case.
